

Historic Masonry Preservation Workshop

Trinity Episcopal Church

Est. 1889
248 N. Arthur Avenue
Pocatello, ID

May 15-16, 2015
8 a.m. - 5 p.m.

Join us if you are a **masonry contractor** who would like to develop a specialized skill in historic masonry. There is a need for skilled historic masons in Idaho.

Join us if you are an **architect, building owner, or historic preservation commissioner** who wants to make sure the most appropriate materials, methods and practices are used in the restoration of your historic building.

This hands-on intensive workshop will cover the important difference between historic masonry and modern masonry, discuss how historic masonry materials were originally designed to process moisture and the roles of historic mortar. Repointing and strategies for preserving and restoring deteriorated stone will also be covered.

Join us with

John Lambert, Founder,
[Abstract Masonry Restoration](#),
Salt Lake City, UT

"There is a distinct difference between repaired masonry and restored masonry. One of them looks original and endures the test of time." ©

28 years hands-on contracting experience cleaning, repairing and preserving historic masonry throughout North America and abroad. Estimated and/or project managed over

1500 successful masonry restoration projects. Expert working knowledge of the various materials, means & methods used today to restore masonry structures.

Eight years consulting experience, litigation support, forensic masonry & expert witness services. Historic masonry expert for the television production This Old House.

Projects include:

General Robert E. Lee's Civil War Headquarters - Lewisburg, WV

St. Francis Cathedral Basilica - Santa Fe, NM

Historic Ralph Waldo Emerson Home - Concord, MA

Historic Henry Coffin Whale Oil Merchant House - Nantucket, MA
